RATIONALE: We would like to have color classes within our breed. We have begun showing in championship and continue to have shows with 10-17 RagaMuffin cats entered in each show. There should be some division of the cats by color, with this many cats being shown in single shows! When we were advanced to championship, the Central Office asked if we were going to use the above breakdown as color classes, as this is how they were registering our cats and have them presently numbered. Thus, we felt this would make an easy division of all our colors, since we have so many possible combinations. Below are our registration statistics. We are having large numbers in shows at one time and really do need to have division within the large group.

The only change we made to the Central Office's breakdown is, we did not separate the patched tabbies out (they can stay in tabby/tabby & white class). We also broke mink and sepia out separately, as they did not have a class for sepias in registrations.
